

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! The taxes and surcharges are enough as it is!

Please reject a flat fee proposal that would change how contributions are made to the Universal Service Fund.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls.

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. Let big business pay a big bill - they have the big pockets!

Keep the USF Fair!

Sincerely,

Kevin Drabek
